**Members Presesnt:**

Erin Fulks  
Megan Bush  
Pablo Oropin  
Brett Keller  
Paul Elliott  
Sarah Christensen  
Stephen Wagner  
Aaron Howell  
Dr. Mackey  
Dr. Wilson

Brett needs to be added to be added to the mailing list.

Picture completed, meeting moved to Lab upstairs.

Budget Meeting planned for Megan and Stephen W. Megan needs the prices.

Brett explained the program to the new participants. Dr. Wilson corrects him.

**We need to accomplish:**

Fill out the information in the packet  
Needs to be done by next week so that it can be edited and sent  
Does not have to include diagrams  
Pablo and Brett will get together next week and work on the RockSim program.  
We need to know what resources we have and just send the proposal. Not all the information. We do not need to lock ourselves in.

We need to look into different GPS systems. We do already have some electronics.  
Closer to date we need to find out about what they are providing for us.

We want to keep hybrid as well as solid as options

Pablo has time on Friday and Saturday. Brett has time on Saturday or Friday night.

Aaron is going to be put on technical design and basically with Stephen including payload and stuff.

Aaron agrees.

Paul will be doing Web Design.

Brett bickers about the resumes. We will all take the resumes and correct them in red and send back to Sarah. Later Sarah will resend them out to all of us.

Stephen and Brett will be going to California. They will work on RockSim on the flight.

We are going to have to get a form to confirm that we will all abide by the safety code.

NAR Safety Code will be emailed to everyone. You need to read it and we will signing it later. Brett tries to act like he is way above everyone on the reading level. Therefore if we do not understand we are of course to RUN immediately to Brett and ask for his knowledge.

Brett will contact people in Arkansas with permits in High Power Rocketry.

Sarah and Brett argue on what should be done during the meetings.

Brett is reprimanded about being late once again.

Saturday September 16<sup>th</sup>—report should be completed as much as possible.

The Doctors and Brett will have a sub-committee about safety meeting.

“BRETT JUST DO YOUR ASSIGNMENT.” –Dr. Wilson
