

September 19, 2006

World Known Rocket Meeting.

Web Design: Not completed. Will be done Thursday. We have the drafts.

www.harding.edu/engineering/uslp

Present Members: Paul, Pablo, Aaron, Stephen, Sarah, Megan, Erin, Dr Wilson, Dr. Mackey

Safety and Mission Insurance—Brett has his level one certification—working toward second. Megan, Dr. Wilson, and Dr. Mackey—Working towards level one certification By the 14th

Permit Holder—We are checkin on the application process. Working towards ATF compliance.

Teleconferencing-- Dr. Mackey has information from Steve Moore. Sarah will type up.

Rocksim—Stephen and his group are going to work on Rocksim. We need to know how big it needs to be – eliminating equations. This will give us the specifications. This will give us the motor size needed. We can download it for 21 days as a free trial.

If we need to change it is fine we can just tell them that we made another evaluation.

Al said Some of the schools are loading a copy of their proposal onto their websites in case the proposal doesn't go through.

Dr. Wilson is looking into ---We can get some extra money from Keith Hudson the director of the NASA epcscore.(? spelling)

Brett gave a budget and Dr. wilson has it

Stephen and Paul are going to go work on the website until 6.

Change in PR proposal part—We are going to set up that cabinet thing.
