

Aaron Howell, Sarah Christensen. Brett Keller. Dr. Wilson, Megan Bush, Erin Fuls, Paul Elliot, Pablo Orpin, and Stephen Wagner are present. Let it be noted that the entire team filled out their applicant data.

Website needs to be operated

The gedaken newsletter will count as publicity

Design Review comes out on the November 13

They want a very detailed rough draft. That needs to get going.

Do we need to buy our motor? Hybrid? We have to use a certain brand. Only one brand has what we need. We need designs of this—that is on the website.

Stephen and Dan are doing design

Video camera

2 altimeters

Antennas

Photo sensor

4in and 3 in diameter to see the differences and check them out on rocksim

Brett is level 2 certified

The other rockets will be coming in soon for Dr. Mackey, Wilson, and Megan and they need to get done soon so that they can get their level one certification

Make our plans around a specific motor but not buy it until we have it approved.

There is enough variation that we can only do so much with the information we can obtain.

Pablo, Stephen, Aaron, and Brett will work on design next Sunday evening at 7

Website--- not much on there yet, we need to have the minutes, pictures, and proposal...possibly articles

Cabinet--- needs to be done by October 26

Talk to PR lady and get the articles sent to Paul

Sarah email Dan about proposal worksheets

Teleconferencing dress-- Business Casual

Erin leaves at 7:05

No confirmation on teleconferencing

Megan and Erin-decorate cabinet in science building lobby

Find out dimensions of electronics for preliminary design review
